

A lot has happened these months!

Since the publication of our last newsletter, a lot has happened in this project! Despite the pandemic, we continue working, trying to adapt to these situations of uncertainty. We are proud to say that we have been very productive! IO2 is completed, IO3 is almost finished, and we are currently working on IO4. Here you have all important information at a glance!

IO2 results

Titled “Recommendations to create bridges between VET and higher education systems for entrepreneurship”, IO2 analyzed the situation in partner countries regarding the possibility of developing and confirming entrepreneurial competences in each country in the context of the national qualifications framework (NQF). Partners focused on searching solutions for bridges between individual education systems and entrepreneurship competence training programs in high schools and colleges in their countries and the possibilities of confirming and certifying qualifications. This was done thanks to interviews with entrepreneurs in partner countries and giving recommendation for the validation process. You can download the report through the webpage! <https://east.erasmus.site/results/>

IO3: Almost done!

IO3 is divided in 3 different parts and we have accomplished the first 2 parts. First, the “Development of the methodology for descriptions of the qualification” which describes what is EQVET and its role in obtaining qualifications in Lifelong Learning

IO3 Almost done!

Second, the “Development of the description of the qualification EAST”. Its main objective is to identify entrepreneurship competences and establish a professional profile of the entrepreneur, identify and propose a level, set the objectives of the course and establish learning objectives.

	KNOWLEDGE	SKILLS	COMPETENCE
Level 4 The learning outcomes relevant to Level 4 are :	Factual and theoretical knowledge in broad contexts within a field of work or study	A range of cognitive and practical skills required to generate solutions to specific problems in a field of work or study	<input type="checkbox"/> Exercise self-management within the guidelines of work or study contexts that are usually predictable, but are subject to change, supervise the routine work of others, <input type="checkbox"/> Taking some responsibility for the evaluation and improvement of work or study activities

Next steps

We are currently finishing the last content of IO3 titled “Assessment methodology for the validation of the Learning Outcomes” and IO4, which is about the OER, where all the content will be available!

Stay tuned for more information about EAST Project!

The partnership

The partnership is strategically formed by partners from five European countries (Spain, Poland, Cyprus, Greece and Italy) and from different sectors, including universities, private companies focused on training, research centers and higher educational institutions.
